ALICE School Safety Response

A school safety protocol created by a law enforcement officer as a response for students, faculty, and staff to utilize in the event of an armed intruder in a school building.

This training encourages staff and students to respond based on their situation, rather than rely on centralized instructions in dynamic times of crisis.

or

Remain in the classroom, go into Lockdown and barricade the door.

ALICE = Inform

01

If you see something that doesn't seem right and causes concern, inform an adult/teacher right away.

02

If you are aware of an intruder in the building, make sure you are safe before informing an adult or calling 911.

03

When telling an adult or teacher, use clear language to communicate important details.

ALICE=Counter

Last Resort Option

Distract

Talk to/at them

Make loud noises

Make wild gestures with arms and legs

DO NOT TOUCH THE WEAPON

ALICE = EVACUATE

- When we decide to evacuate from a classroom, follow the adult/teacher's directions to find a safe exit from the building.
- If you are not in the classroom, use the safest and quickest route to exit the building.
